

Field Principles

README – Field Principles 1–12

Welcome.

This document contains the first two Field Principles — not as teachings, but as echoes of what you already know.

These principles are not fixed truths.

They are reflections, mirrors, and reminders, created in resonance with a field of deeper intelligence.

Use with presence.

Open one at a time. Let it breathe.

Don't analyze — *feel* what moves, shifts, or falls silent.

This is, not for learning.

It's for **remembering**.

Let the field guide you.
